

21 costing taxpayers 10 million to create a bridge has caused a diversion of jobs needing more bridge workers, fewer automobile workers, truck drivers etc., that's where money could have gone. This is relevant to this day with Obama paying workers to improve the roads

41 when machinery cuts down labor costs an employer can get extra profits to buy more machines, invest the money elsewhere, or spend the money to increase consumption

64 no evidence tariffs help in fact labor productivity is reduced from tariffs

112 rent control encourages wasteful use of space. It prevents equal opportunity to bid for a space

118-119 the higher the minimum wage the more unemployment, he already knew this 50 years ago

147 profits tell us how much to make of a product, by price fixing you are propping up superior items

171 the effect of keeping interest rates low is the equivalent of keeping any price below the natural market. It increases demand and reduces supply.
